the only system of religion that claims to furnish an adequate basis for self-governing matitutions. Distance, too, would involve the rupture of cherisand accelesisation ties, and the abandonment of co-operative benevalence at home and abroad. The noble example of american Christian entopries, and the rising influence of our thristian civilozation, must want and react, as the lite currents of charity dry up, and the night of our brief and brilliant day gallers gloom. And should prevalent apprehensions ripout hato fact, so that armed strife should essay the allest ment of difficulties insoluble to reason, patriotism and religion, and thus pave the way for popular indichity, subbath breaking, incentiousness—all the terrible concentrates of carl war—how justify would the guilty authors and abotters of this misery be vesited with the madedictions of Christenson, and how bitter must be the self-reproaches of those who neglected any part of their duty in arresting or averting the dire catastrophe.

We cannot doubt that a spirit of candor and forbear-mace, such as our religion prompts and the exigencies of our times defined on the constitution is difficulties possible, consistently with every constitutional right. Unswerving featify to the constitution justly interpreted, and a prompt return to its spirit and requirements, wherever there may have been divergence from either, would seem to be the first duty of citizens and logicalators.

It is our firm and we think intelligent conviction that

North and the South, the East and the West, in one thin-blesses American brotherhood.

To this end, dear brethren, and for the sake of those spiritual gifts so imperatively needed by our American Zion, let us unceasingly impiore the outpouring of the body spirit on the rulers and people of these United GARDNER SPRING,

FINANCIAL AND COMMERCIAL.

WEDNESDAY, Jan. 16-6 P. M. The money market is again easier to-day. We hear of a large line of paper going at 7 per cent, and quite a large number of names are current at 9 a 12. On call, money abounds at 5 a 6 per cent. The tendency of our money market to increased ease will assist the negotiation of the new Treasury notes on Saturday next. The prevailing opinion in the street appears to be that they will go at from 8 to 10 per cent, and that the bids will considerably exceed five millions in amount. Much, however, must depend upon political events. The only fear of moneyed men is, that the President may not show firmness in the present emergencies. If he continues to administer the government with courage and boldness, people will be ready enoung to lend money to the United States. In this view, Mr. Buchanan's answer to Col. Hayne is likely to assist the negotiation on Saturday.

The stock market continues firm and even buoyant, though there is not much outside business. There are no stocks in the street, there is a lively inquiry for stocks from parties who have sold short on the political erisis. Illinois Central, which has been freely sold, advanced this morning to 83%, and this afternoon to 851/4; it sold three days ago at 76. Reading also advanced, and the general Western railroad list was higher. Tennessee 6's fell off a fraction, and Erie was also rather lower. In the afternoon a very large business was done, and prices were uniformly higher than in the morning. The 12 per cent Treasury notes fluctuate between 2½ and 2½ premium. At the close to-day the market was firm, the following being the quotations—United States 5's, 1874, 92 a 93½; Virginia 6's, 74% a 75; Tennessees, 74% a %; Missouri 6's, 68 a %; Canton, 14 a 15; Cumberland Coal preferred, 7 a 9; Pacific Mail, 89% a 90; New York Central, 78% a 1/4; Erie, 39% a 40; Hudson River, 47% a 48; Harlem, 15% a 1/2; do. preferred, 38 a % Reading, 41% a % Michigan Central, 54% a % Michigan Southern and Northern Indiana, 14% a 15; do. guaranteed, 937, a 34; Panama, 114 a 116; Illinois Central, 85% a %; Galena and Chica 260 do 154 50 Chie, Bur & Q RR

go, 67% a %; Cleveland and Toledo, 34% a %; Chicago and Rock Island, 55% a 56; Chicago, Burlington and Quincy, 69% a 70. The business of the Sub-Treasury was as follows to-day:-R ceipts. -- For Cur Becapts \$68,685 01
For Customs \$,000

The Hudson River road will pay the interest upon its first mortgage bonds on the 1st of February, and will close the transfers on the 19th inst. The Insurance Company of North America, of Philadelphia, has declared a semi-annual dividend

of 6 per cent, and an extra dividend of the same amount; the Hamilton Woollen Company, a quar-terly dividend of 6 per cent.

The semi-annual interest on all the bonds of the

State of Tennessee was paid in New York in full on the 1st day of January. All the railroad com-panies, to whom State bonds had been issued to aid in building their roads, furnished their quota of interest as provided by law, except the Winches-ter and Alabama, and the Edgefield and Kentucky. The Governor of the State has appointed Mr. Lamb, of Fayetteville, Receiver of the former, and A. Anderson, of Nashville, Receiver of the latter road. These roads will be operated by the State

The crop is moving to market more freely since the recent advance in prices. The deliveries at the Gulf ports this week by telegraph are the largest of the season, and at New Orleans exceed even these of the corresponding week last year. Thus the falling off, which has increased so rapidly of late, will now be checked; and fix view of the large quantity which has been held back, and now

The New Orleans Delta of the 11th says:—

The demand for foreign exchange shows no abatement whatever; but with a more limited supply we can only report moderate operations at yesterday's figures. Transactions in time bills on New York, &c., have also been restricted, but this was owing to the mistrust with which they have been viewed for some time. Sight bills, however, moved along freely, and transactions to a fair extent have been effored at previous rates. We quote as follows:—Clear sterling bills, 2½ a 4 per cent premium for the general run of names, and 4½ a 4½ permium for direct remittance. Bill of lading drafts, 2 per cent premium. Francs, 5.47½ a 5.67½ per dollar. Sixty day bills on New York, &c., 3 a 4 per cent discount. Sight, ½, a ½ per cent discount. Some of the musing lots of specie which have been detained by snow storms along the line of railroads have turned up to day, and we have to report the following receipts by express, via New York:—60.000 sovereigns, 300,000 frances and \$256,000 in United States gold coin. The sovereigns and francs have not yet been disposed of, and holiers appear to be undecided whether to send them to the mint for recoinage into American currency, or keep them for realignment to Europe when a turn in rates of exchange will justify such a movement.

The Chicago Tribune of the 14th says:—

The Chicago Tribune of the 14th says:-The week has been an eventful one. Immediately after the first of January exchange becam to decline from the The week has been an eventful one. Immediately after the first of January exchange began to decline from the high rate—10 per cent—at which it had ruled for some six weeks, the fall amounting to almost a panic, till it reached three per cent, and that figure, though still three times above what it ought to be, gave great satisfaction to our mercantile community. This week the market opened with a rising scale, and it went up till it reached eight per cent premium yesterday, where it remains today. As might be expected, the demand has become very light, and most of the banks report the market easier to-day, though the current rate is still main tained. The buying price is 7 a 7½. Banks don't like to give over 7. Within the last two or three days we learn that large purchases of pork have been made by marchants and shipped East to make exchange. Should the rate remain at the present figure, this policy will be very generally adopted by all who have large remittances to make. It will tend very essentially to regulate the exchange market and bring down the price to living rates. Let the work go on. Gold—buying nominal at 6, selling 8 per cent premium. Little wanted.

Mr. Arthur, Superintendent of the Illinois Cen-tral Railroad, writes under date of the 12th: tral Railroad, writes under date of the 12th:—
The largest freight earnings ever made by our road in one day were yesterday—\$15.676. The weather is fine for farmers to gather their corn and take it to market, and if the price was higher we should be overwheimed with it. As it is, we find it difficult to do the business offered promptly. There was never one half the corn in this State at this seasen of the year before. Large ship ments are making South. I apprehend no danger to the shipments of produce South. Immense quantities are needed, and if the shipments are made insecure none will be sent, and suffering will be the result. The people of the South know this, and will be governed accordingly.

We have received a copy of the message of Lieutenant Governor Hammond, of Indiana (the Governor, Ashbel P. Willard, having died in October last). It gives no information relative to the financial position of the State, merely referring to
the report of the Auditor upon the subject, which
has not yet been published. The Governor says:

During the time that I have been acting as the Executive of the State there has been no question presented to
me, save one, that can by any possibility affect the pecuniary interests of Indiana. The semi-annual interest
on our public debt for January, 1861, was maturing,
without the means in the State treasury to meet it. There
was no mode of liquidating that interest except by borrowing money. And believing that the clitzens of Indiana desired that her obligations should be kept, the
Auditor and Treasurer of State, together with myself,
taking as our authority an act of the General Assembly
prescribing the duties of Governor, approved May 27,
1852, made a lean of \$125 000 from Mesers. Winslow,
Lanier & Co. of the city of New York, giving our obigations to pay the same in May next, out of the revenue
for the year 1860. It is a matter much to be regretted
that Indiana is in such a condition that she is compelled
to go into the market to borrow money for any purpose
whatever. But it is due to truth to state that this nesessity would not have existed out for the failure of the
Senate of Indiana to pass a revenue bill for the years
1867-8. financial position of the State, merely referring to

SHIPS ASHORE—We remarked a few days since that the practice of anchoring vessels in the North River during "ice terms" was fraught with greater danger than if they were brought to the piers. We have now to record the grounding of the ships Fearless, of Boston, from Manila, and Calhoun, from Liverpool, on the flats between Ellis' and Bedioe's Islands, carried there by the North River ice on Tuesday night. There fortunately being a very full tide yesterday, with wind from NE, they were floated off at high water and towed to their berths. The warm rain has somewhat reduced the quan-

tity of drift ice.

CHARLESTON, SOUTH CAROLINA.

All the Rar Buoys excepting the inner one have been take away. The amer one has been removed inshore, and is calculated to put vessels into danger. The Beacon at the Lighhouse, the range to cross the Bar, has been removed; and the Northern Eseson on Neuthran's Island, the range to run up the Main Ship Channel, has been torn down.

Main Ship Channel, has been torn down.

Captain Stone, of the brig Josephuse County and the limited states of the brig Josephuse County and the limited and the limited states of the brig Josephuse County and the limited and the chart in port of the grade of the limited states over the position of this island at midday with good observations; any some large focks of birds, and many of them hand birds; believe that there is an island in existance thereabouts, but net within sixt miles of its position on the chart. For three days had the wind SSW, with a current setting NE at the rate of 2½ miles per hour. Sept 3% run for four islands laid down as occupying a space of five or six miles—position on chart ion 169 deg 52 W, lat 4 deg 32 N, sailed over the position of these islands several times at midday, clear weather, gr od observations and a lookout shoft and on deck day and slight; looked for these islands three days—saw many birds, and the most of them land birds; believe that there is one or more islands in this vionity, but not within 60 or 160 miles of the position of those islands, as per chart and the latest survey to be had there. As these seven islands, which I have a cruche for, are more or less in the track of ships bound from San Francisco or Hornbulu to baker's fland, I would say that ship masters need not (car them in the positions I have given, and may run in search of them with safet, either by day or by night, with the erdinary lookout. I would here say that I nave E & G W Blunt's charts of date 1849, with additions to 1858.
